Trial Assist Technology

Experienced. Dedicated. Professional. Driven. Loyal.

Trial Assist Trial Technologists utilize the latest technology and equipment. With over 43+ years of experience in the courtroom, Trial Assist can handle all your trial needs. Trial Assist uses the many software programs including OnCue, as well as PowerPoint, Adobe Director, and other custom software that we have developed.

We have qualified technicians to work on your case. We know it is essential to have dedicated individuals who are hard workers, are detailed oriented, and can work diligently to assure you the excellence and quality you have come to expect and rely on.

We utilize the latest hardware and software technology.

We continually upgrade our equipment and software to accommodate the latest trends in technology.

Our Trial Technologists are Certified.

Visually Tell Your Story

Trial Assist can help you educate, inform, and persuade the jury by presenting your case in a dynamic and compelling manner. We can present your case so that it will visually unfold before the jury to better educate and inform.

Case Consultants

Concepts are critical to your trial. Trial Assist can assist in the formation of a case theme for use throughout your trial presentation. Once case themes have been determined, our Consultants can analyze the graphics and technology best suited to your case with your theme.

Trial Assist Technology

Experienced. Dedicated. Professional. Driven. Loyal.

Wherever you need to go...Trial Assist can be there for you

No matter when or where, Trial Assist Trial Technicians and Consultants can travel to remote locations. We can handle your out of town needs including videography, photography, trial preparation, and courtroom technology.

Some examples of our work out of town involve:

- Deposition Videography
- Photography
- Aerial Videography
- Site Inspection Photography and Videography
- Day in the Life Videos, Documentaries and Memorial Tribute Videos
- Meetings with Experts, Witnesses
- Inspections
- Focus Groups
- Mock Trials
- Mediations
- Settlement Negotiations
- Hearings
- Arbitrations
- Trial Technology

Trial Assist Technology

Experienced. Dedicated. Professional. Driven. Loyal.

Trials, Arbitrations, Mediations and Hearings are becoming more sophisticated.

As technology advances, there are more elaborate ways to present evidence allowing the movement of cases in an expeditious, efficient, and effective manner.

Judges and Juries appreciate organization and technological demonstrations.

The use of advanced technology can set you apart from your opposition. Utilizing effective presentations is what is expected of attorneys.

Trial Assist can help you at Trials, Arbitrations, Mediations, Hearings and Pre-Trial Conferences as well as other legal matters.

- Trial Assist uses advanced technology in the Courtroom – Full HD systems
- Presentation of the exhibits and documents through trial software technology
- Presentation of Questionnaires, Jury Definitions, Jury Instruction, Jury Charges, Timelines other documents on the screen
- Preparation of demonstrative charts and diagrams relating to biases/opinions of the jury panel for the Voir Dire process
- Development and presentation of persuasive Charts, Diagrams and PowerPoint Presentations summarizing the issues of your case for Opening Statements
- Preparation of Charts, Diagrams, Video clips, and PowerPoint Presentations that recapitulate the facts, evidence, and testimony for Final Arguments
- Preparation of visually compelling PowerPoint Presentations for Mediation, Arbitrations, Hearings and Trial
- Our Trial Technicians are experienced and certified
- We have Certified Video Specialists to edit video and audio depositions
- Trial Assist has over 43+ years of trial experience

Trial Assist Technology

Experienced. Dedicated. Professional. Driven. Loyal.

Focus Groups and Mock Trials

There are advantages of having a Focus Group and Mock Trial. They help the trial team learn their strengths and weaknesses, obtain attitudes on specific evidence, and development of case themes. Trial Assist has years of experience in coordinating with Focus Group/Mock Trial research colleagues and can assist you in your presentations.

- Preparation of compelling visual presentations for Focus Groups and Mock Trials
- Our Certified Video Specialists can edit video and audio depositions
- Preparation of pre-videotaped witness testimony, opening statements, and final arguments for display to the Focus Group participants or Mock Jurors
- Presentation of exhibits and videos through use of trial software during the Focus Group and Mock Trial

Trial Assist Technology

Experienced. Dedicated. Professional. Driven. Loyal.

Monitors/Projector/Screen

Deposition Exhibits can be shown on a monitor or screen with an Elmo, projector or computer. The Exhibit can be shown on a screen or monitor next to the witness and it will be captured on video in two ways: Picture in Picture or Combined with the witness video.

Documents on Elmo

Exhibits placed on an Elmo can be displayed on a monitor, laptop, or screen. The witness or attorney can write on the exhibit if needed.

Documents on Computer

Exhibits can be added to trial software programs on a computer. Our Videographer can pull up any exhibits and prepare call outs if requested. The witness can view the Exhibit on a Monitor or Screen. All our Certified Video Specialists are Trial Technicians and have experience in presenting exhibits with trial software programs.

Touch Technology

Trial Assist also have monitors that have touch technology in which the witness can mark the monitor with special software.

Trial Assist Technology

Experienced. Dedicated. Professional. Driven. Loyal.

Trial-Links

Trial Assist has developed an application, Trial-Links, for use with PDF hyperlinks. Our application allows you to present your case with PDF exhibits hyperlinked to a main document. Our program allows clear view of the Main Page and the hyperlinked document next to each other. You can highlight and magnify the section of a document for a closer look. Our application can be used during all phases of litigation. Trial-links can be created and tailored for your specific purpose. Let us help you show your evidence with this Trial-Links.

Timelines

Utilize Trial-Links for your timelines. The Timeline's main page graphic can be hyperlinked to other specific documents, videos, photographs or other evidence. You will be able to view the Main Page of the Timeline and continue up or down the timeline easily.

Settlement Brochures

Trial-Links can provide a strong platform to settle your case. Your settlement demand can be hyperlinked to key documents, expert reports, economic calculations, expenses, medical records, X-Rays, MRIs, Videos, deposition excerpts, and other types of evidence that prove your case value. You can easily maneuver through the settlement demand to get to any key document you want.

Document Presentation

Use Trial-Links at your depositions, hearings or trial. Your Exhibit List can be hyperlinked to your PDF exhibits. Display exhibits from your computer to a projector/screen for all to view. You can hyperlink hot documents or every page of each exhibit. You also can highlight and magnify the viewed exhibit.

The screenshot displays the Trial Assist Technology interface. On the left, a legal document titled "Kibbel v. Royal Dutch Petroleum (10-14913)" is shown, detailing a class action lawsuit. The document includes sections for "Questions as Framed for the Court by the Parties" and "Either Kibbel represents a class of citizens from the Ogoni region in Nigeria who filed a class action suit against the respondents Royal Dutch Petroleum, Shell Transport and Trading Company and Shell Petroleum Development Company of Nigeria (Royal Dutch Petroleum)" in the Southern District of New York in 2003. On the right, a "Sabic Americas Annual Report" is displayed, featuring a summary of financial data:

SABIC AMERICAS	
Total Assets	\$90,381,460,734.94 - US Dollars
Net Income	\$6,737,937,302.29 - US Dollars

Below the financial report, there are images of a brochure titled "FROM CHALLENGE TO ACHIEVEMENT" and a document titled "CONSOLIDATED BALANCE SHEET".

Trial Assist Technology

Experienced. Dedicated. Professional. Driven. Loyal.

Trial Preparation

Thorough trial preparation is critical to ensuring a strong, definitive case. The earlier that you can bring Trial Assist to your team, the more prepared you and your client will be for trial, mediation, settlement, or arbitration. We have years of experience to draw on to assist you in preparing your case for trial, including handling of documents, exhibits, videos, and other case-oriented material you will need to be most effective. No matter what stage of litigation your case is in, you can be confident that Trial Assist can help you prepare your case in an efficient and cost effect way.

Let us help you in your case:

- Organization and indexing of documents
- Analysis projects regarding documents or deposition testimony
- Specialized Deposition Summaries
- Medical records organization and analysis
- Collection of photographs, albums and other media from clients
- Assist your experts in photography or videography needs
- Prepare outlines for comparison of witness testimony

Dynamic Graphs, Charts and Diagrams

Experienced. Dedicated. Professional. Driven. Loyal.

Graphic Charts and Diagrams are useful when telling the story of your case visually. Trial Assist can create persuasive and dynamic demonstrative exhibits in electronic, interactive or printed formats.

With our comprehensive trial experience, we have prepared thousands of convincing graphics for all phases of litigation.

Some examples of demonstrative exhibits that we can create for you are:

- Bar Charts
- Comparison Charts
- Economic Charts
- Chart of Highlighted Witness Testimony
- Chart of Undisputed Facts
- List of Background Benefits
- Diagram of Failures and Excuses
- Chart of Pain and Suffering
- Chart of Economic Damages
- Medical Illustrations
- List of Union Developments
- Chart of Policy Changes
- Chart of the Facts of the case
- Photograph enhanced with graphics overlay
- Chain of Title Purchases
- Graphics of Risk Analysis
- Graphic Exhibit Boards for Key Documents with Call-Outs

Animations 2D, 3D, Interactive and Real-time

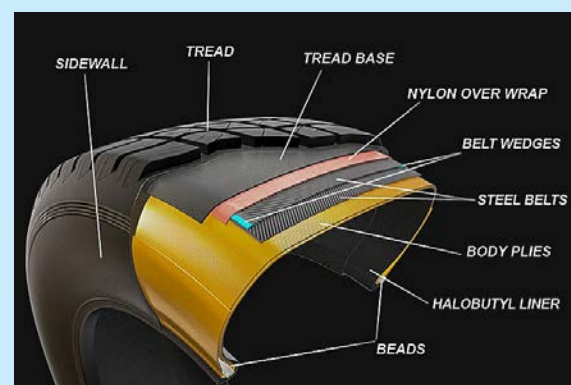

Bring evidence to life in the courtroom with Animations. Animations are powerful and can make your case stronger.

Trial Assist can prepare persuasive and informative Animations that simplify difficult concepts while capturing the juror's attention.

Animations can help the attorney explain complex and technical aspects of their case easily.

We provide a full array of 2D and 3D animation services including design of illustrative exhibits, trial board production, photo realistic capture and recreation of places, objects or events.

We also can display them interactively in real time.

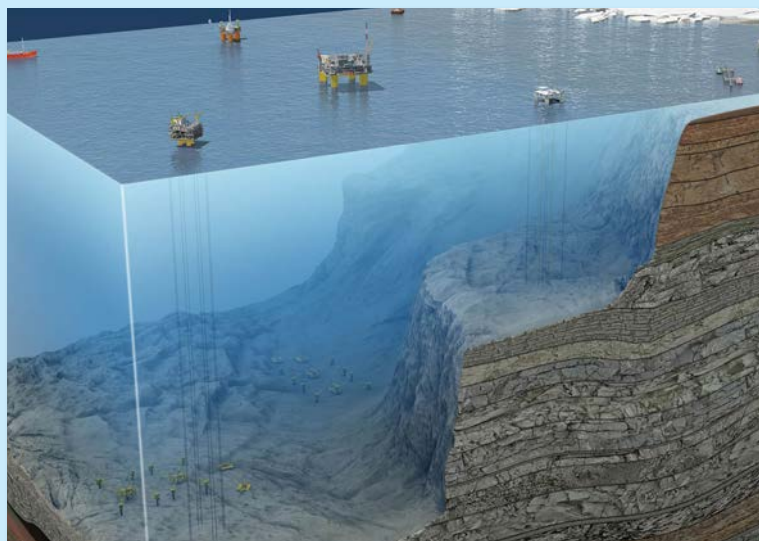

Dynamic Graphs, Charts and Diagrams

Experienced. Dedicated. Professional. Driven. Loyal.

Examples of Animations and Illustrations Trial Assist can prepare for you:

- Medical injuries
- Crane functions
- Surgical equipment uses
- Oil Well Drilling
- Tire Design and Blowout causes
- Railroad design
- Land Remediation Areas
- Offshore Drilling rig operations
- Ship loading procedures
- Surgical procedures
- Vehicle braking dynamics
- X-Ray and MRI overlay onto illustrations
- Show a physical object or location that no longer exists
- Show interactions between vehicles, objects and or persons
- Demonstrate technical or unsafe concepts and events
- Provide an interactive point of view to an object or location
- Show events at slower or faster than real-time
- Display the inner construction and processes of objects
- Accident recreation
- 3D Scanning and photogrammetry

Pano Graphics, Virtual Reality, Timelines

Experienced. Dedicated. Professional. Driven. Loyal.

We have created a virtual reality application incorporating the use of Pano Graphics. Pano Graphics allows the viewer to see a photo with a 360 degree viewing angle. The user can zoom in on different areas of the photo or click hot spots to move to entirely new areas. The benefit of using Pano Graphics is that it enables people to see a more complete view of environments not easily accessible.

Timelines - Interactive and Hyperlinked Exhibits

Having an effective Timeline can prove your case. Trial Assist is proficient in preparing all types of Timelines, including Interactive Timelines and Timelines with hyperlinked exhibits.

Trial Assist has developed an application, Trial-Links for use with PDF hyperlinks. The Timeline's main page graphic can be hyperlinked to other specific documents, videos, photographs or other evidence. You will be able to view the Main Page of the Timeline and continue up or down the timeline easily.

We have extensive experience in analyzing case files and preparing your Timelines in an efficient, effective and persuasive manner at any phase of your case.

Some examples of the timelines we can create for you are:

- Timeline of Events
- Medical Treatment Timeline
- Timeline of Witness Testimony
- Timeline of Monetary Spending
- Timeline of Medication Usage
- Timeline of Historical Land Development
- Timeline of Patent Changes
- Inconsistencies in Time Events
- Timeline of Missed Appointments
- Timeline of Symptoms

Trial Assist Presentations

Experienced. Dedicated. Professional. Driven. Loyal.

Settlement Brochures and Presentations

Trial Assist is continuously optimizing its techniques so that your settlement presentations are effective at the negotiation table. We use videos, charts, diagrams, evidence highlights and edited deposition testimony in our Presentations to make them compelling and persuasive. We want your case to make an impact when negotiating and we have the experience to create dynamic presentations to do just that. Our expertise includes work in PowerPoint, Animations, Photoshop and numerous graphic programs.

We can provide your dynamic presentation in many ways:

- Electronic and non-electronic settlement presentations are available in various formats
- We can place the electronic presentations on a secure server for retrieval via assigned passwords
- We can provide a printed Settlement Brochures with an electronic version included on a flash drive for auto playback

Trial Assist Presentations

Experienced. Dedicated. Professional. Driven. Loyal.

Speech Presentations

Need help with your Speech Presentation? Trial Assist has prepared thousands of PowerPoint Presentations and can help you prepare your speech to be clear, concise, informative and visually appealing. Giving a speech with a visual presentation will depict your confidence and strength in your knowledge of the subject. We can help you make your presentation have the greatest impact to your audience.

We can create your presentation with visually appealing text, images and animations that will captivate your audience's attention. Whether it is adjusting your draft presentation to a visually appealing one or preparation of a new presentation for you, Trial Assist has the expertise to provide the best visual speech presentation for you.

Mediation Presentations

Should you use a PowerPoint Presentation at Mediation? It is a useful tool that helps show important evidence persuasively to the decision-maker. In technical complex cases, using a visual presentation with animations, charts, diagrams, and comparisons can be essential to explaining the case persuasively. In a complex factual or legal case, visually presenting the issues can simplify or magnify your points. They are indispensable with damage tallies and calculations.

A well done visual presentation will convey competence and thorough preparation which can strike fear in the heart of the opposition. Likewise, not having an effective presentation in a compelling and organized way is a subtle sign to your adversary that they have the upper hand. Trial Assist has prepared hundreds of presentations and has the experience to make your presentation an impressive and winning one!

Trial Assist Videographers

Experienced. Dedicated. Professional. Driven. Loyal.

Video is valuable in your case

We can conduct video interviews of your clients to obtain the facts of the case and investigate their background to make their story fact filled and engaging. If a picture is worth a thousand words then a video is even more compelling. We understand the need to communicate your client's story effectively. We are experienced at visual communication. Let us take your vision and bring it to life in video or we can apply our own creative story telling to support your case.

Need a Certified Videographer?

Hiring certified video specialists who utilize HD quality equipment are essential to having an effective and high-quality video. All Trial Assist Videographers are Certified Video Specialists with the American Guild of Court Videographers (AGCV). We are ready to handle all your video needs.

Our Certified Video Specialists use the latest technology software and video equipment including HD/4K cameras and will provide your video in any video format requested (MP4, MPEG, WMV, DVD, AVI, or any format).

Trial Assist Videographers

Experienced. Dedicated. Professional. Driven. Loyal.

Deposition work is critical in preparing your case and it can be overwhelming at times. If you need help in your deposition projects during any phase of discovery or trial, then the Trial Assist Team is here to help. We have experience in preparing specialized deposition summaries by topic, with comparisons to other testimony or just highlighting page-line testimony by designation offers. Let our experienced Team work for you.

- Outlines Subject Testimony
- Specialized Deposition Summaries
- Page-Line Testimony Highlighting

Deposition Video and Audio Editing

All phases of litigation ultimately require some video cuts to be made for playback. We have extensive experience in editing video and audio with a detailed eye to provide flawless video cuts. Trial Assist uses the highest quality, modern video editing technology software and are time and cost efficient. We can help you in all your video and audio editing needs. Trial Assist has Certified Video Specialists to edit video and audio depositions. Examples of the deposition editing work we do are:

- We can prepare Deposition Direct Cuts, Cross cuts, or Re-Direct cuts
- We can analyze Deposition Exhibits with transcripts to determine entrance/exit of exhibits in video depositions
- We can hyperlink deposition videos with deposition exhibits for playback
- We can Digitize videos into any media format
- We can synchronize video depositions with deposition transcripts
- We can prepare deposition cuts to play on laptops in any format
- We can normalize audio volume fluctuations, remove extraneous sounds and preparation of audio transcripts

Day in the Life Videos, Documentaries and Memorial Tribute

Experienced. Dedicated. Professional. Driven. Loyal.

Day in the Life Videos, Documentaries and Memorial Tribute Videos can be crucial for enhancing and resolving your case. They can convey the immeasurable impact an accident or injury on the lives of your clients. Trial Assist can create winning evidence videos for you.

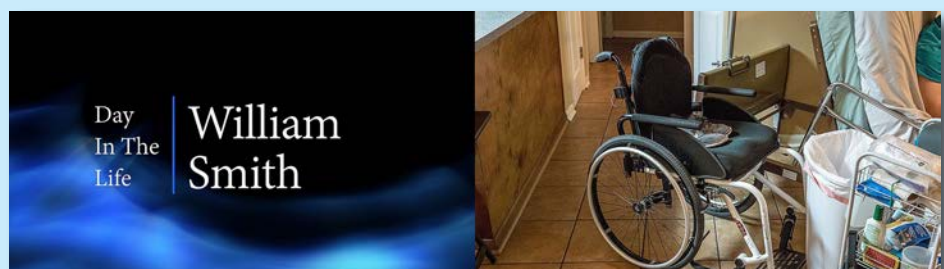

Trial Assist has years of experience in interviewing witnesses and handling the sensitive issues that your client has experienced. We can show compassionately the difficulties and unpleasant situations of an individual's life so that the viewer can have a better understanding of the full extent of the client's injuries, physical and emotional trauma.

Trial Assist uses many facets to bring your video to life:

- Multiple camera angles can be used to enhance the video
- Interviews of witnesses, doctors, family members and others
- Photographs are inserted in video to allow the story to unfold
- Captioning titles are added to chronicle the facts
- Transcription captioning is provided when there are language barriers
- Voice-over narration can be included

Trial Assist encourage videos taken at different venues :

- To ensure the highest quality and most impactful Day in the Life Videos, Trial Assist consultants will travel anywhere needed
- Hospitalization of clients following surgery or treatment
- Doctor visits for treatment
- Physical Therapy visits
- Home daily activities
- Accident site

Site Inspections and Settlement Videos

Experienced. Dedicated. Professional. Driven. Loyal.

Bring your remote locations directly into the courtroom

Site inspection videos are powerful and can affect the outcome of the case. Trial Assist has Certified Videographers who can travel anywhere to secure an effective site inspection video.

Some examples of site videos and photos taken by us are:

- Construction sites
- Accident Scene locations
- Aerial videography over sites
- Plant Inspections
- Drilling Rig Inspections
- Ship Site Inspections
- Slip and Fall locations
- Truck and car damage
- Land Remediation sites
- Office Building damage
- Home storm damage inspections
- Crane and equipment inspections

Trial Assist Photography Services

Experienced. Dedicated. Professional. Driven. Loyal.

Pictures convey information more effectively than words

Photos bring truth to a story. In all instances, photographs are very persuasive in nature. Photographs draw attention to injuries, isolated locations, accident sites, daily life, and other critical events.

HD/4K Quality Cameras

Trial Assist can capture dynamic photographic images in your case. We have experience using the highest quality cameras and have photographed people, places, documents, equipment, movement, and events all throughout the United States.

Photos that make an impression and impact in all phases of litigation:

- Homes and property
- Office Buildings
- Cars, trucks, 18-wheelers
- Refineries
- Manufacturing plants
- Oil rigs offshore on inland
- Ships and boats
- Street construction
- Accident Sites
- Construction of buildings
- Personal Injuries
- Medical devices
- Burn injuries
- Aerial Photography
- Medical treatment

Trial Assist Photography Services

Experienced. Dedicated. Professional. Driven. Loyal.

Media Download - Evidence Photography

Need to download your client's photos or documents from their computer or cell phone? Need your emails or texts preserved for discovery? The Trial Assist Team can handle all aspects of media downloads for you. We also organize and number them for production if requested.

We also can photograph or video your evidence, including, identification cards, framed photographs, trophies, certificates, awards, and other valuable evidence that is not downloadable. We have experience meeting with clients and experts to capture that important evidence to win your case. Let our Team help you preserve and protect your evidence.

Video Marketing

Need a marketing video that will sell your company? Our Certified Videographers have the experience in developing persuasive documentaries of attorneys, organizations, schools, and businesses.

Trial Assist can help you communicate your message in compelling videos for you to market. We want to get you noticed and get others excited about your company. Let us develop a marketing video to promote your company and set you apart from your competitors.

Trial Assist Software Services

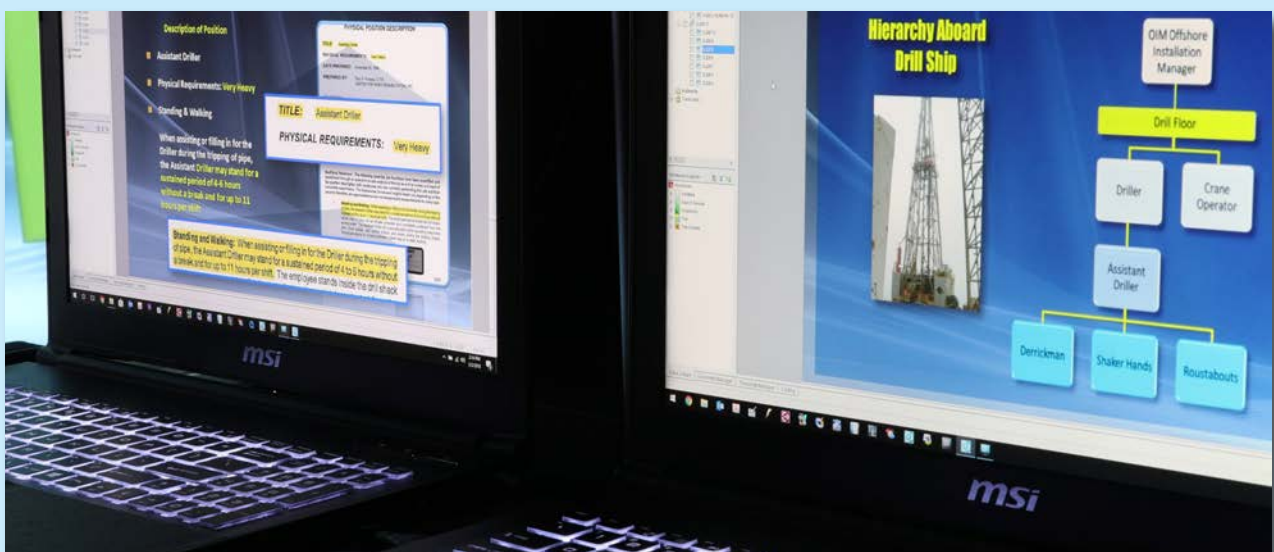

Experienced. Dedicated. Professional. Driven. Loyal.

Trial Assist offers custom software solutions for your presentation and process needs. When traditional software productions such as Trial Presentation Software, Microsoft PowerPoint or Adobe Acrobat fall short of providing a compelling courtroom presentation we can custom design and create an interactive multimedia application specifically suited for your case.

Our custom application can incorporate, audio, video, deposition video, 3D and 2D animations, photos, text, and documents. Additionally, we can create custom solutions that integrate with Microsoft Office and other commonly used applications to help reduce the time it takes to process repetitive tasks.

Trial Assist has developed a custom software solution that can prepare mass emails for distribution through a secure server. Our proprietary software solution allows us to easily manage the tedious process of generating and sending thousands of emails to numerous recipients regularly.

Trial Assist can help you make handling big projects easier. We can develop custom tools and software that can save you time and expense. If you have a project that you need to streamline in an effective manner, let us help you.

Trial Assist Staff: Experience and Dedication

Experienced. Dedicated. Professional. Driven. Loyal.

Experienced. Dedicated. Professional. Driven. Loyal.

Steven Hite

Steven has been devoted to the legal industry since 1993 developing multimedia applications, settlement presentations, and providing trial tech services for law firms. After graduating from the University of Houston in 1990 Steven began working with the legal industry where he applied his knowledge of programming for use in multimedia and programming skills.

Steven has experience as a lead developer in the production of a wide range of interactive computer-based multimedia training applications for the Petroleum industry. Steven was also an adjunct professor of Multimedia development at UH Central campus for 7 years. He created custom applications to address the needs for the Petroleum, Medical and Legal industries. Steven focused his efforts primarily for the legal industry with his custom application called MobiusDV, a deposition editing application and Trial Links, a split screen viewer for legal briefs containing hyperlinks to citations.

Steven also has experience in IT support, creative presentation design and has extensive experience as a Trial Tech. He has worked on numerous multi-million cases for pharmaceutical litigation and explosion cases. Steven began working with Trial Assist to provide numerous services for law firms including handling the technology at trials, Settlement Presentations, Multimedia applications, Photography, Videography and Photo-Video editing.

He has handled many trials for Plaintiff and Defense, including the Deepwater Horizon cases, Williams Plant explosion cases, Cooper Tire Separation cases, Paxil Pharmaceutical trials, Land remediation cases, Kuraray plant explosion cases and many other multi-million-dollar cases.

Steven is a certified trainer for Trial Director and is also a Certified Videographer and member of the American Guild of Court Videographers.
